LAMINEX® SOLID SURFACE HOMESTAR v3.1

CREDIT

MAT-1
Materials Selection

A potential total nine points where there is a selection of re-used, eco-preferred and responsibly sourced materials as defined by NZGBC (over 50% of a range of 13 specified construction systems within the build must use these materials to qualify).

Laminex Solid Surface can contribute towards this credit with:

- DECLARE
- ISO14001

LAMINEX® SOLID SURFACE LIVING BUILDING CHALLENGE

The ingredients used in Laminex Solid Surface make it a great choice for any Living Building Challenge project – with **NIL RED LIST** ingredients in either the 100% acrylic solid surface or its adhesive components.

This stunning solid surface can also be thermoformed to realise even more inventive designs. Its unique flexibility makes it ideal for residential and commercial, horizontal and vertical applications including bench tops, counter tops, reception desks and commercial bars.
